

SECRET

Draft: MCP
2 January 1969

(Draft of letter of transmittal to and to General Carter) STAT

Dear (Al, Pat):

Enclosed is a copy of the report of the Target-Oriented Display (TOD) Committee describing the initial TOD project. Likewise enclosed is my memorandum to Mr. Nitze which advises him that I believe the continuation of this project along the lines recommended in the TOD Committee's report will be of general advantage to all of us concerned with the more effective coordination of intelligence activities.

Your continuing support and participation in the TOD project is important, particularly while the target-orientation concepts are being further developed. I am very hopeful that the future results from the second phase of TOD will be immediately useful to you in the management of your own program.

(Question: should this sort of letter also be sent to General Carroll, or is Admiral Taylor's 26 December memorandum to Carroll as a NIRB member an appropriate substitute?)

Remarks:			
<p>I have just been informed by Colonel Wood in Systems Analysis that Mr. Nitze's office staff has sent a copy of Admiral Taylor's 26 December memorandum to General Carroll, General Carter and [redacted]</p> <p>As HIRB Chairman, Admiral Taylor has sent this to General Carroll. However, no communication has gone from the DCI to Carter and [redacted]</p> <p>I believe we should send the report to the letter two under some appropriate letter of transmittal. I have tried my hand at that, and it is attached. I think this should be done as rapidly</p>
